## Black' Or Design... Your Home, Your Happiness

I am ...

Isabelle Desquesnes, living and working in Ibiza and Belgium  
Graduated as a Holistic Therapist - Feng Shui Interior/Exterior Designer

My Purpose & Work

In my practice as a natural interior designer, my goal is to create an environment, a home where the inhabitants feel more inner-balance, in a healthy and beautiful place to live.

“Your new space will nourish your soul,  
where the Chi will flow in a positive way.”

I will invite you to show how to play with some special light-effects, eye-catchers, paper wall, open spaces, contemporary furniture designs, to liven-up a home and create a certain mood of energy in every room.

To take care of the taste and desires of my client , I will propose my professional advice and experience to show some different styles of interior with some designs and 3D renders.

I offer my service for renovations and new projects.

Stars can't shine  
without darkness

For every budget we can achieve a style :

- Oriental
- Minimalistic
- Modern Organic
- Boho-chic
- Ethnic
- Classico
- Retro
- Vintage
- Scandanavian
- Eclectic
- ....

It will be my pleasure to take care of your personal desires,  
and that my design will resonate with YOU.

### Work plan

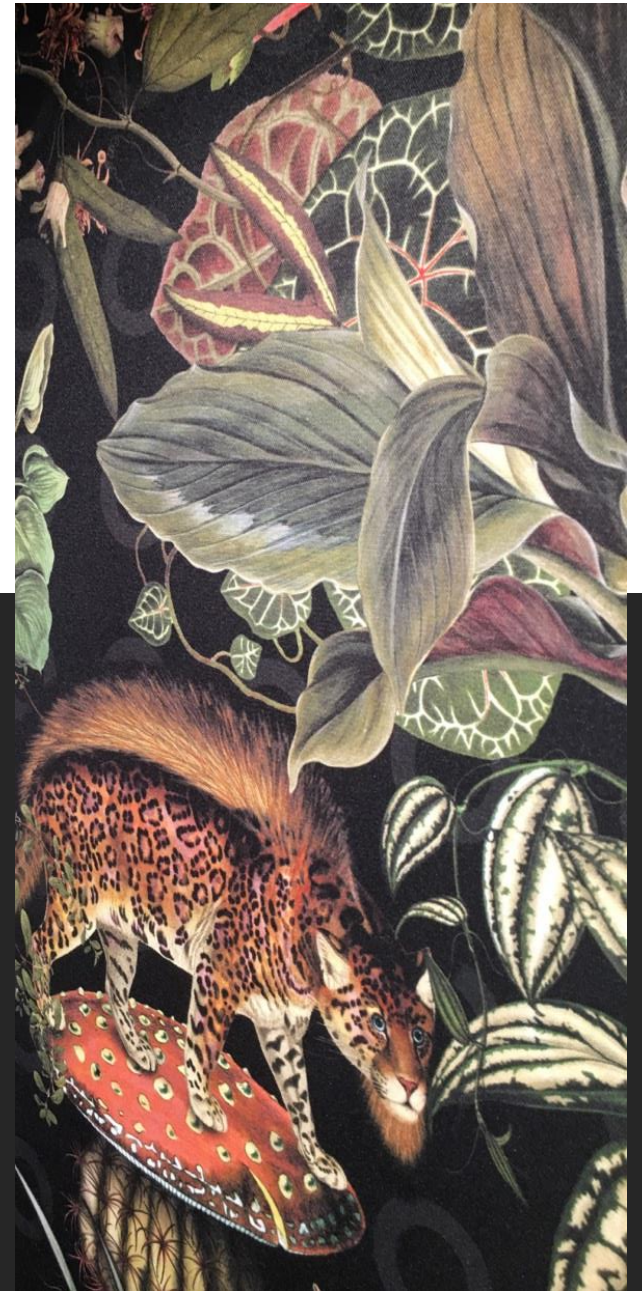

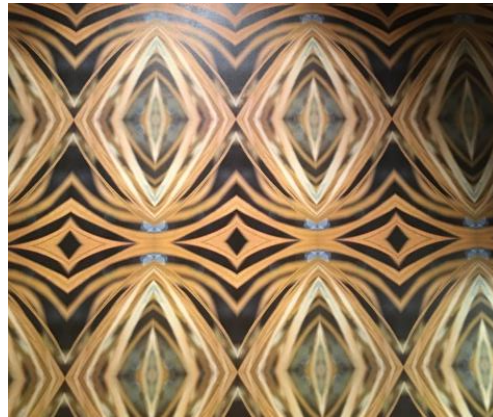

- ❖ Personal meetings and site-inspections, your needs and wants
- ❖ Budget proposal to determine feasibility
- ❖ Making a report and lay out of the best possible designs
- ❖ Proposal of some purchases
- ❖ A design concept is born
- ❖ Implementation: colour schemes, furniture placement, plants, decoration
- ❖ Hand-over of the finished project to the customer

## Wall Cover Products – WALLPAPERS

A team of experienced designers creates several new collections. All of these new products must be innovative and trendsetting, while also being of superior quality. About half of the products are manufactured in-house through environmentally-friendly processes.

You can imagine what you want!  
All patterns of Art and all textile you ever could imagine:  
velvet, metallic, silk, wood, banana leaves, vinyl...

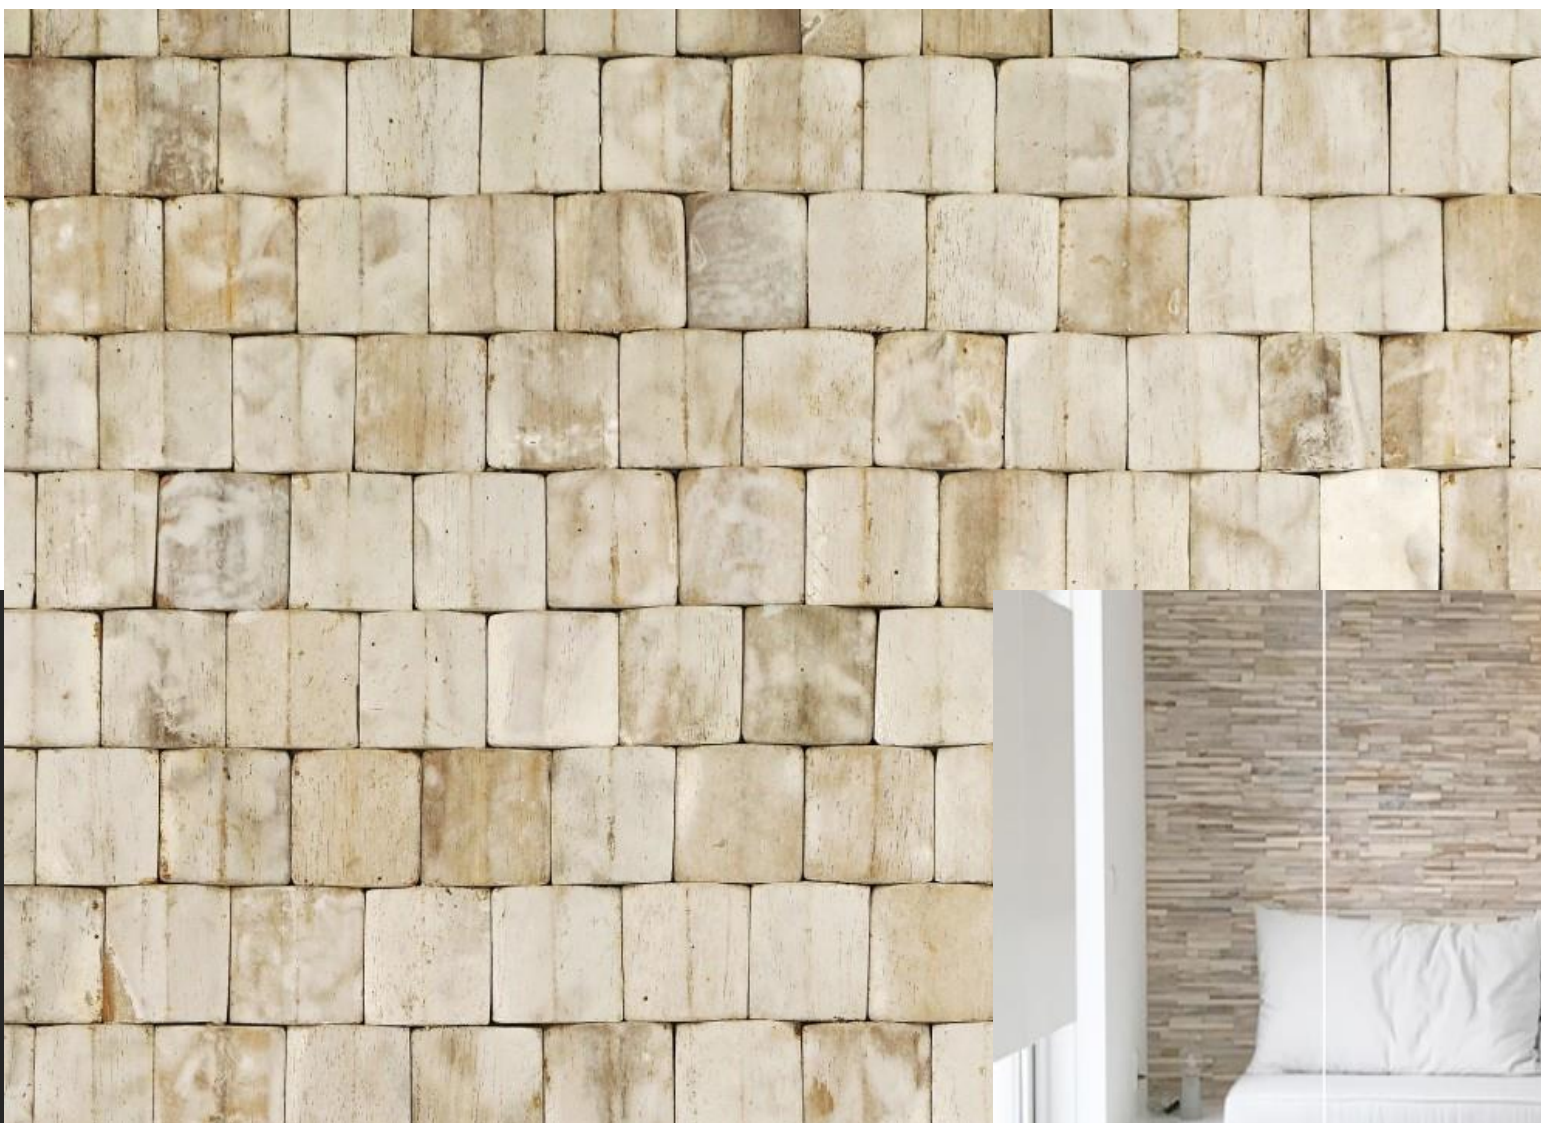

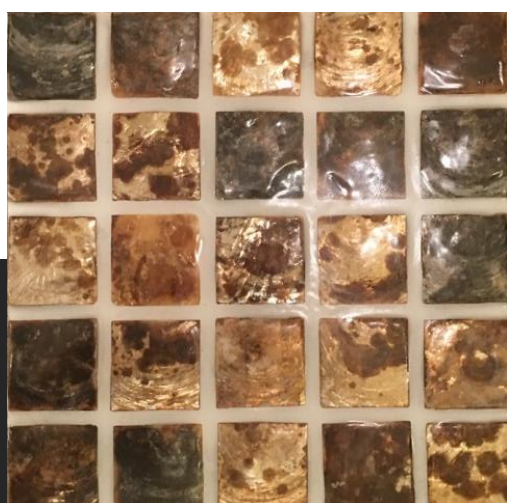

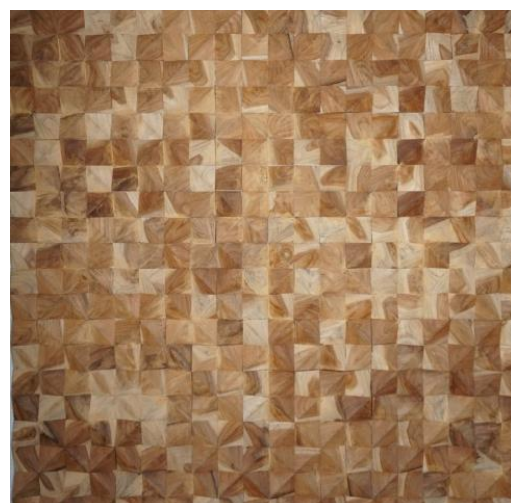

## Wall Cover Products - DECO PANELS

Nature at Home : Hand made & eco-friendly innovative wall panels & natural decoration.

Inspired by nature and the love for natural forms and structures. Nature at home creates sustainable interior decoration from rest materials. We use the waste matter from nature as raw materials to create beautiful, convenient wall panels. We use wood, tree bark, coconut, shells, mussels, Himalaya salt, and moss to create unique and varied collections.”

## Wall Cover Products – LEATHER COVERS

### Innovation, design & the environment

Whether it regards a leather floor or a leather wall, a leather tile or carpet... leather must look like leather. All skins are finished manually in order to accentuate the natural characteristics. We most definitely take the environment into account; that is why the tanning, colouring and ennoblement take place on the basis of biologically degradable substances. This process creates the numerous hues that render the material, which is originally already unique, even more exclusive. And because the manufacturer continuously focus on improvement, innovation, design and experimentation, new possibilities are created over and over again.

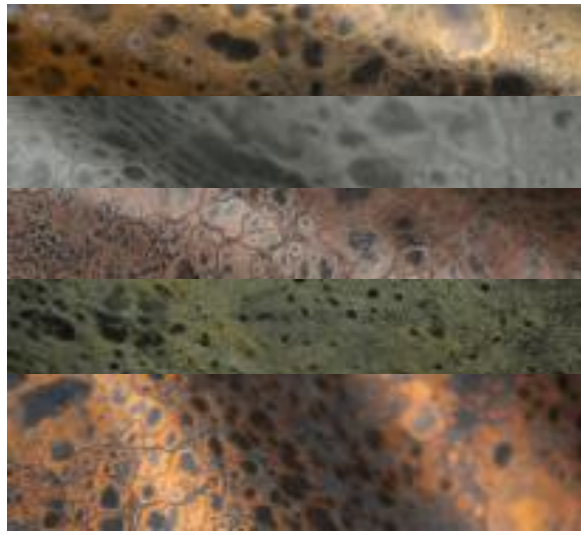

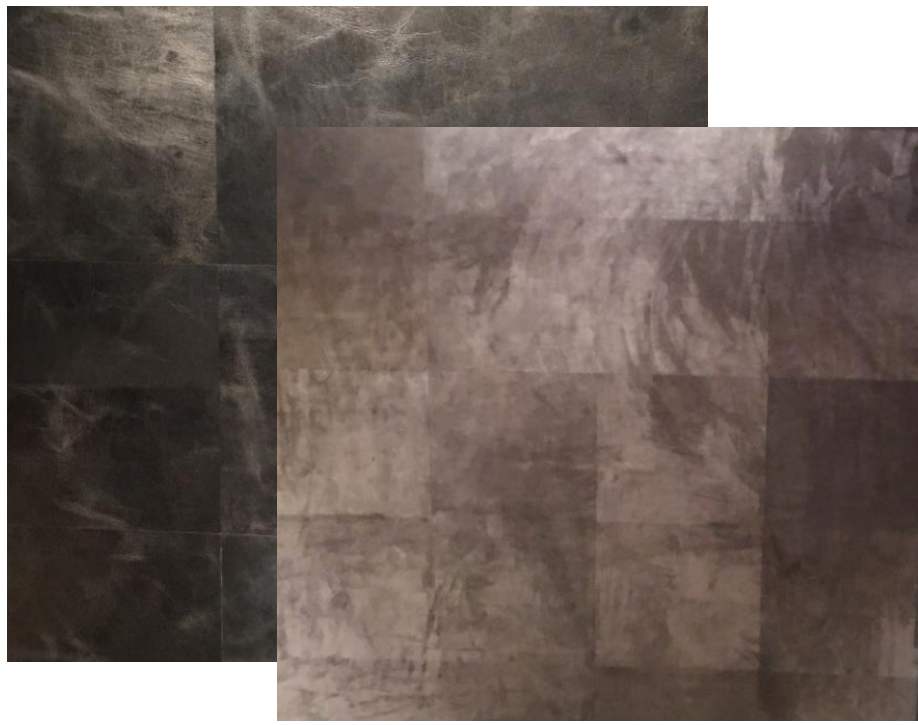

### Leather Walls

Leather wall covering: stylish, exclusive and completely distinctive. Leather allows the walls to set the tone. A leather wall is a sensual experience. A delight for the eye, noise reducing and extremely tactile. So we are justified in saying that leather wall coverings are genuinely sensational. We supplies leather walls in any colour, to any size and in specially designed patterns or relief, if required. Turning an ordinary wall into an eye-catcher that is both chic and trendy but above all, timeless.

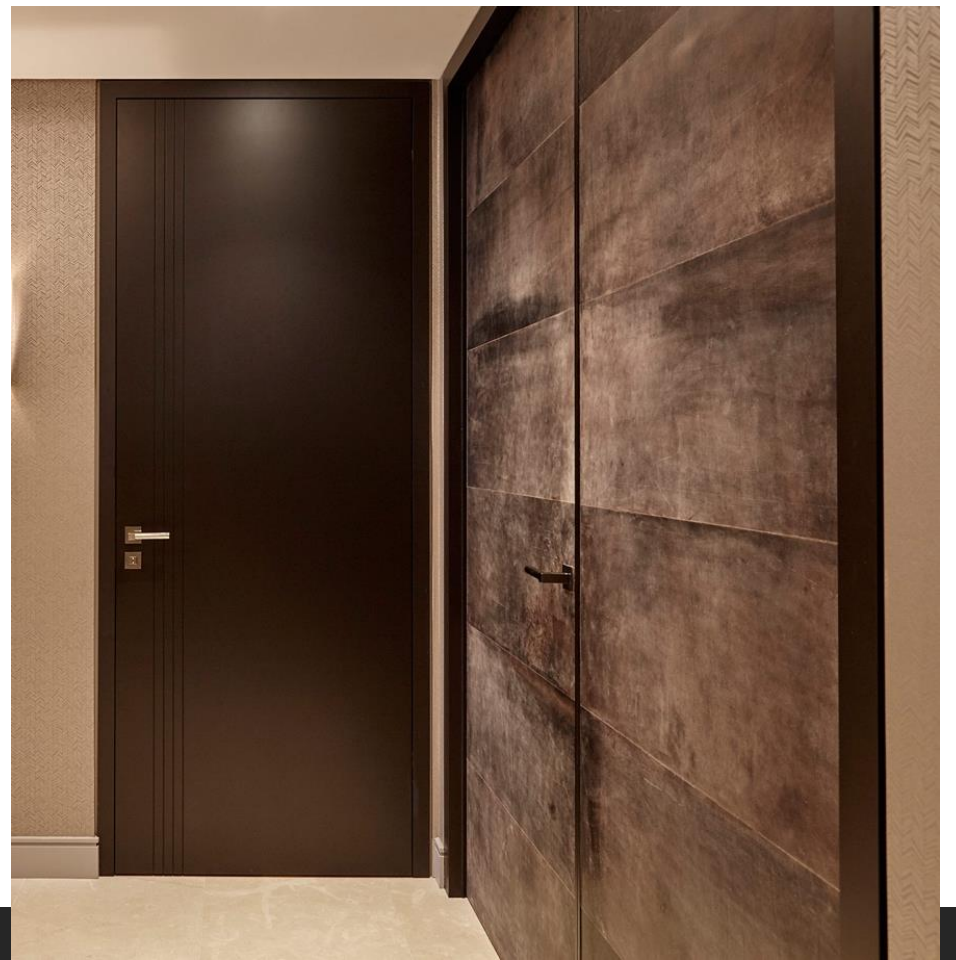

## Wall Cover Products – LEATHER

### Leather Stairs

A stairway is a challenge. For every architect and every interior designer, the stairway is an element that can genuinely set the tone. So it's no surprise that, alongside construction and dimensions, we also focus on finish. The perfect stairway is not only beautiful, it is also safe, noise reducing and durable. The stairway is a functional element that is used extensively and comfort is therefore also a very important factor. Leather stair covering offers boundless options, for an existing stairway and also for new stairs and renovations. Leather is strong, soft, noise reducing and can also be formed to any size in any colour. A leather stairway becomes more beautiful and personalised the more it's used.

Leather Doors, Floors , Bar

## Furniture Products – BEDS

The most fundamental Mediterranean elements combine harmoniously with the perennial presence and expertise in the field of handmade mattress. Hence, they are transfigured into a unique collection of beds, through the technical skill and passion for perfection of craftsman. Simple lines, natural materials, compliant with the highest quality demands, blend perfectly timeless aesthetics with functionality. All the beds of the collection are designed to offer stability on every mattress for perfect support during sleep. Discover the affordable luxury of the beds to enjoy a refreshing sleep "at a Mediterranean resort" and wake up fresh, ready to seize the day.

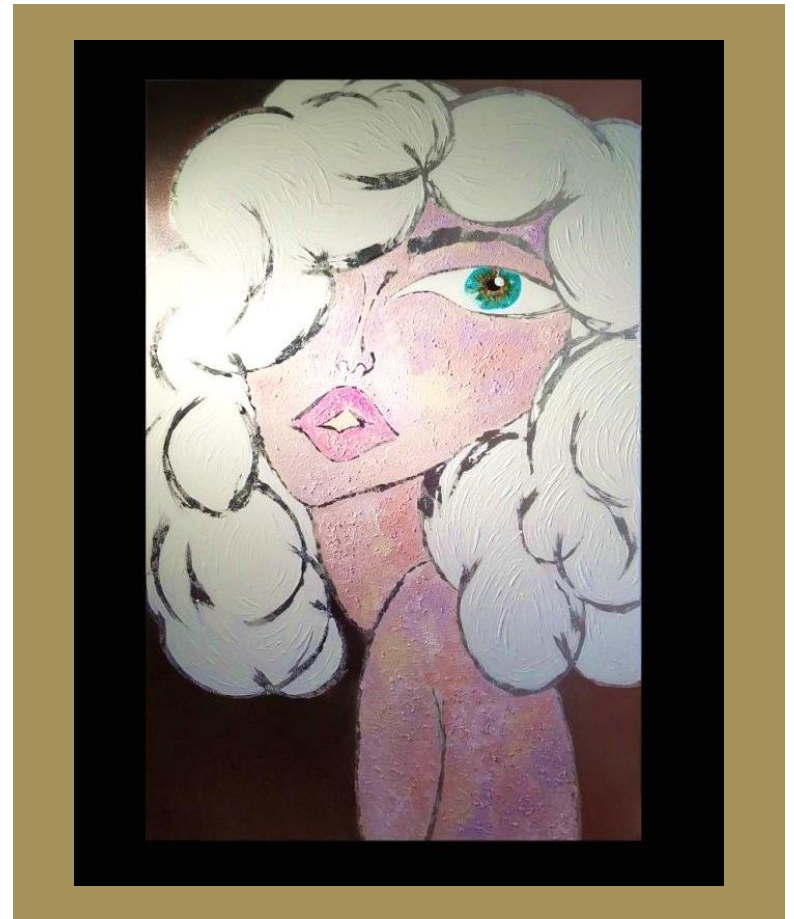

Furniture Products – LIVING

Products – LIGHTS

DECO OBJECTS - Art

## DECO OBJECTS - Cow Skins

Trendy, beautiful, timeless, eco-friendly, natural and each one is a unique piece. They are saved as a by-product, manufactured under supervision of SVHC (Substance of Very High Concern) as per the norms of REACH on the ECHA website.

## DECO OBJECTS

Cow skins become hand-crafted unique deco objects like flower pots.

## PROJECTS - Renovation Villa Can Anfos in Ibiza 2018

This charming 200 years old finca has been totally renovated in a new shape of luxury local Ibiza style. Feng-Shui design in a fusion of old and new natural materials mixed with minimal copper taps of Dutch designer Piet Boon. This house is an eco-friendly concept, playing with the 5 elements of nature : Water, Earth, Air, Wood, Fire. It means that the Art and open Spaces that I created, are in harmony with the laws of nature. Your Awareness of body & mind will become more open... Awesome!

PROJECTS - Renovation Villa Castle Rock Seven in Ibiza 2019

Complete renovation of this very large villa originally from the eighties with 1400m2 indoors and 750m2 terraces. Uplifting energizing black-and-white in a minimalistic style, modern furniture – some from Minuti design.

Using touches of flashy gold, Pop Art images, spacious and fresh, white walls. Outdoors: large open spaces with terraces renewed floors using ceramic white stone. Massive minimal glass balustrades to enhance the amazing views.

## PROJECTS - Renovation Villa Castle Rock Seven in Ibiza 2019

## PROJECTS - Re-Design Country House and Gardens in Belgium 2017

Complete re-design of this large country house on 3 floors, with 600m<sup>2</sup> indoors and 7.500m<sup>2</sup> of gardens. Circles contrast with organic shapes, mixing oriental and modern style, natural materials like wood and stone. Using metallic, gold and red color, grey walls. New furniture, some antiques from Mongolia. Design and implementation of the large Feng-Shui gardens with terraces, pond, swimming pool, pool house, sauna, fruit trees, labyrinth, etc.

## PROJETCS - Re-Design Country House and Gardens in Belgium 2017

*De weg naar Ibiza*  
**What you seek, is seeking you...**

Here I am, op een magische plek op 'het naburige' zusterland Formentera. Last minute, zo werkt dat op Ibiza. In de middag of rowthers, ergens op een heuvel, een eeuwenoude finca met overspoelt mij... Enkel het geluid van de wind, de grassen, de bamboe en de palmen vullen mijn hart. Puur natuur. Een zalige bries met zwoele temperaturen, een plots in het zwembad; het is pure verwennerij!

**Een kleine anekdote: Toch geen toeval dat in mijn hele jonge jaren de priester van onze parochie mij de betekenis van mijn naam 'Isabelle' vertaalde als 'mooi eiland'. Hij sloeg hiermee de spijker op de kop, zo blijkt maar weer.**
